PROFESSIONAL EXPERIENCE

Upwork Freelancer — Full Stack Web Developer

Remote | February 2023 – Present

- Top Rated Plus freelancer delivering full-stack applications for global clients across e-commerce, SaaS, fintech, and healthcare industries.
- Developed scalable full-stack apps using Next.js (App Router) with MongoDB and Prisma ORM.
- Built Redux slices for authentication, dashboard filters, modals, and notifications.
- Implemented secure login flows using NextAuth.js with credentials and OAuth providers.
- Set up automated CI/CD with GitHub Actions and deployed to AWS Lambda via Serverless Framework.
- Integrated Stripe for payment processing, subscriptions, and split payouts.

Key Projects:

- **Lappeland (lappeland.no):** Production-grade hunting and outdoor gear marketplace for Norway. Built with Next.js App Router, MongoDB, Prisma, Redux Toolkit, TypeScript, and Tailwind CSS.
- **Neonbit (neonbit.at):** Secure SaaS dashboard for team and permission management. Built with React.js, TypeScript, and custom Laravel API.
- **Emakity (emakity.com):** Multi-vendor e-commerce marketplace with secure checkout and order tracking. Built with Next.js, Laravel, MySQL, and Stripe.
- **Salearis (salearis.com):** B2B freelancer marketplace for DACH region. Built with Laravel, Vue.js, Sanctum authentication, and Stripe subscription billing.

Carbonic IT Solutions — Web Developer

Pakistan | 2022 – February 2023

- Developed and maintained web applications focusing on performance and scalability.
- Implemented modern development practices and clean code architecture.
- Collaborated with cross-functional teams to translate client requirements into technical solutions.
- Built responsive, mobile-first interfaces with a focus on user experience.

Key Projects:

- **Global Shopaholic (globalshopaholics.com):** Online shopping platform for USA clients with secure payment gateways and efficient order processing. Built with Bootstrap Vue 3 and Laravel 8.
- **JACOBS Drycleaners (jacobsdrycleaners.co.uk):** UK-based dry cleaning service website with customer management and service booking. Built with Nuxt.js and Laravel 8.

VisionX — Web Developer

Pakistan | 2019 – 2022

- Developed and maintained web applications using Laravel with clean code and modular architecture.
- Implemented RESTful APIs to improve integration with third-party services.
- Improved database efficiency through query optimization and indexing.
- Assisted in migrating legacy codebases to modern Laravel versions.
- Built and maintained dynamic websites and custom CMS solutions using core PHP.

Key Projects:

- **Morta (morta.com):** Construction-tech SaaS platform enabling property developers to manage procurement, budgeting, stakeholder coordination, and project planning. Built with Next.js, Node.js, TypeScript, GraphQL, and Stripe SDK.
- **Ayshei (ayshei.com):** UAE-based classifieds and auctions marketplace serving 100,000+ users across electronics, real estate, motors, and art. Built with React.js, Node.js, GraphQL, PostgreSQL, and Golang microservices, deployed on AWS EC2 with Docker and Jenkins CI/CD.
- **Halcyon (halcyonsolutions.ai):** USA-based tax management cloud application integrating IRS Tax APIs, serving 700+ financial institutions and managing millions of dollars in tax returns. Built with React.js, Node.js, MySQL, Prisma ORM, Redux Toolkit, and Ant Design using Onion Architecture.

Dixeam Inc. — PHP / Laravel Developer

Pakistan | 2017 – 2019

- Led a team of developers to build scalable web solutions using modern PHP frameworks.
- Architected backend services and ensured secure, high-performance code.
- Streamlined development processes by introducing CI/CD workflows.
- Enhanced website performance, reducing load times by 30 percent.
- Implemented RESTful APIs and integrated third-party APIs for seamless data exchange.

Key Projects:

- **SnapDebt (snapdebtrecovery.com):** USA-based debt recovery and management web application serving 10,000+ businesses across Florida. Built with React.js, Node.js, Redux Toolkit, Prisma ORM, and AWS S3, with automated collection workflows and compliance reporting.

- **Moonrock (moonrockpm.com):** Tenant and landlord property management application with Stripe integration for rent payments, lease management, and maintenance requests. Built with React Native, TypeScript, MySQL, and Stripe SDK.
